Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3, 6, 9, 11 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Grandjot (US 2,663,377).

Regarding claims 1, 3, 9 and 11, Grandjot discloses a removable template and a method for recording custom settings on an audio amplification system (3). Grandjot shows the control panel (12), the template comprising a template blank (col. 2, lines 14-19) shaped for accommodation by the amplifier control panel (12), the template blank having cut outs or bores (col. 2, line 37) facilitating the application of the template to the amplifier control panel, and the subsequent operation of the control panel, the template blank further comprising a surface for marking control settings and related indicia (col. 2, lines 1-20).

Regarding claims 6 and 14, Grandjot shows the means (15) for removably attaching the template to the control panel.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 2, 4-8, 10 and 12-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Grandjot in view Fogel et al (US 4,011,671).

Regarding claims 2, 4-8, 10, and 12-16, Grandjot fails to show the recording sheet produced from plastic stock with magnetic back. Although Grandjot teaches using pins to fix the paper on the control panel, one skilled in the art would have expected that any other type of recording material and the method for fixing the recording material could be used without generating any unexpected result. It was well known to general public that the paper could be easily moved away from the pin if the user accidentally pulls the paper. Fogel et al (hereafter Fogel) teaches another material for making the recording chart. The recording chart, as taught in Fogel, is made of plastic or cardboard (reads on the claimed foam) with magnetic back (metal). Thus, it would have been obvious to one of ordinary skill in the art to modify Grandjot's template in view of Fogel by replacing the paper with the plastic sheet or cardboard with magnetic back in order to keep the recording chart in its place.

Response to Arguments

5. Applicant's arguments with respect to claims 1 and 9 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
